Assistant Professor,  
Department of ECE.

To  
The Principal,  
SVIET, Nandamuru.

Respected Sir,

Sub: Requisition to allow for conducting Three day workshop on **Image Processing with OPENCV** by **BIST Technologies, Vijayawada** on **11-03-2025** to **13-03-2025** from **10:00 AM to 04:00 PM**—Reg.

I would like to conduct a Three day workshop on **Image Processing with OPENCV** for II B.tech II Sem students by BIST Technologies, Vijayawada on **11-03-2025** to **13-03-2025** from **10:00 AM to 04:00 PM**. Learning this topic opens up a wide range of career opportunities. So please give permission to conduct the program in the Department of ECE.

Hence, I request you to permit us to conduct the above mentioned program.

**Requirements:**

- Projector with speakers
- Seminar Hall
- One Technical Person

Thanking you,

*Forwarded to  
Principal*

## Curriculum Vitae

Name of the Resource Person: Mr.R.Upendra Rao

Designation: Engineer

Name of the Organization: BIST Pvt. Ltd., Vijayawada,A.P

He has 15+ years of experience in electronics field.Mr.R.Upendra Rao has finished his bachelor of engineering at C.R Reddy Engineering College, Eluru in 2006. He pursued his master of technology at Pondicherry Engineering College in 2009. After completing his post graduation he joined as a hardware engineer at Hyderabad.Mr.R.Upendra Rao played a crucial role in designing, developing, testing, and maintaining embedded systems, which are specialized computing systems that perform dedicated functions within larger systems.

In 2018 Mr.Upendra Rao joined as an engineer in BIST Pvt. Ltd., Amaravathi, A.P. Mr.R.Upendra Rao has very good knowledge on Real-Time Operating System (RTOS) Programming. He work with hardware and software to create solutions for various industries like automotive, aerospace, and healthcare. He is an expert in giving training for engineering students and the training involves coding, debugging, testing, and optimizing embedded systems to ensure they function reliably and efficiently.He is also efficient in doing mini projects and also suggested project ideas using Embedded Systems that can be developed by the students and the possibilities of getting funds for those projects.

Mr. R.Upender <[upendder@gmail.com](mailto:upendder@gmail.com)>

Dear sir,

Mr. R.Upender,

Greetings from SVIET.

I would like to invite to a three day workshop on" IMAGEPROCESSING WITH OPEN CV" on 11-03-2025 from 10:00 AM to 4:00 PM. This topic has good scope to learn about how to gain hands-on experience in imageprocessing with open cv. We hope you would be able to fit the workshop in your busy schedule. The participants and organizers will be benefit a lot from your expertise on the topic. If you have any queries please contact us sir.

Thanks & Regards

**What is Opency?**

OPENCY is a free and open source library primarily used for real time computer vision and machine learning tasks, offering wide range of algorithms for image and video processing, object detection and more.

**Why to attend this workshop?**

To gain hands-on experience in Image processing with OPENCY.

To learn how to Manipulate, Enhance and Segment images using Python.

To interact with industry experts and peers. To enhance your skills and boost your career prospects.

**Who can attend?**

Engineering and Science students from all Disciplines.

Faculty members and researchers

### Guest Lecture on "Image Processing using OpenCV"

A Guest Lecture on "Image Processing using OpenCV" was successfully organized for the final year students of the Electronics and Communications Engineering department. The primary aim of the lecture was to introduce the students to the basics of image processing techniques and demonstrate how OpenCV, a powerful open-source computer vision library, can be used to manipulate and analyze images for various applications.

The core of the session delved into the practical aspects of image processing using OpenCV. Key topics such as image filtering, edge detection, object recognition, and image transformations were discussed in depth. In addition to the theoretical explanation, the session featured live demonstrations where students could observe the real-time application of image processing techniques using OpenCV

This guest lecture successfully bridged the gap between theoretical knowledge and practical application, giving the students valuable insight into the power of image processing and the tools they can use to work with images and video data in real-world scenarios.
